

General Polymers®  
High performance floor systems

IT'S NOT JUST A FLOOR.  
It's a **canvas** for your imagination.

When you're selecting a decorative floor, good looks are important, but it's not your only consideration. Your project requirements must be met. Your client's expectations exceeded. And let's not forget about those governmental regulations. How can you fill all these needs, and still get a floor that shows off your artistic vision?

**Count on Sherwin-Williams®.** With the General Polymers® brand, we are the industry leader in decorative flooring systems. We have an extensive selection of styles that will show off your design. And all of our flooring will stand the test of time. Add to that our industry-leading service and support, and it's easy to see why Sherwin-Williams is your first choice for solutions that will help you satisfy your clients and achieve your vision.

*Make a dramatic entrance. A stunning hallway. A beautiful executive lobby. With Sherwin-Williams Thin-set Terrazzo, you can turn your floors into works of fine art. And since Sherwin-Williams is the leader in Thin-set Terrazzo, you can count on us to help you achieve your grand vision. Look to Thin-set Terrazzo for the styles and selection that will set your imagination free.*

TERRAZZO

Get durability and achieve great looks with Sherwin-Williams' Ceram™ Decorative Flooring. Decorative patterns and an unlimited color selection let you create a floor that gets noticed. And with Ceram, you can build a floor that will last. Its impact resistant properties stand up to heavy traffic, and it's finished off with a coating that resists harsh chemicals and stains. Sherwin-Williams Ceram has the durability and the aesthetics to enhance even the hardest working environments.

Sherwin-Williams Ceramic Carpet™ Decorative Flooring System blends colored quartz with clear resin for a truly unique style, available in a variety of color blends. Its good looks are balanced with the tough durability and the chemical and stain resistance you need. Ceramic Carpet's texture is customizable to your specific environment for easy cleaning and skid resistance. Sherwin-Williams Ceramic Carpet will give you a decorative look that functions beautifully in all kinds of tough environments.

When aesthetics are important and the budget is limited, the Sherwin-Williams Decorative Mosaic Coating System provides an excellent alternative to a solid color floor coating. Varying sizes of multicolored vinyl chips bring depth and highlight the design. The chips can be fully broadcast or lightly sprinkled as an accent. The Decorative Mosaic Coating System has excellent durability and good chemical resistance.

## CERAM™ DECORATIVE FLOORING SYSTEM

- ❖ Enhanced beauty with highly decorative patterns

## WALL SYSTEMS

*We know that your floor needs to interface well with your walls. So Sherwin-Williams® Wall Systems provide a watertight smooth interface with the cover base. Our Wall Systems are made from environmentally-friendly epoxy and urethane materials for projects requiring impact resistance, chemical resistance, thermal shock protection and wash down environments. And for hygienic work environments, our wall coverings are easy to maintain, and available with an antimicrobial additive that will reduce odor and protect the finish from microbe-related degradation.*

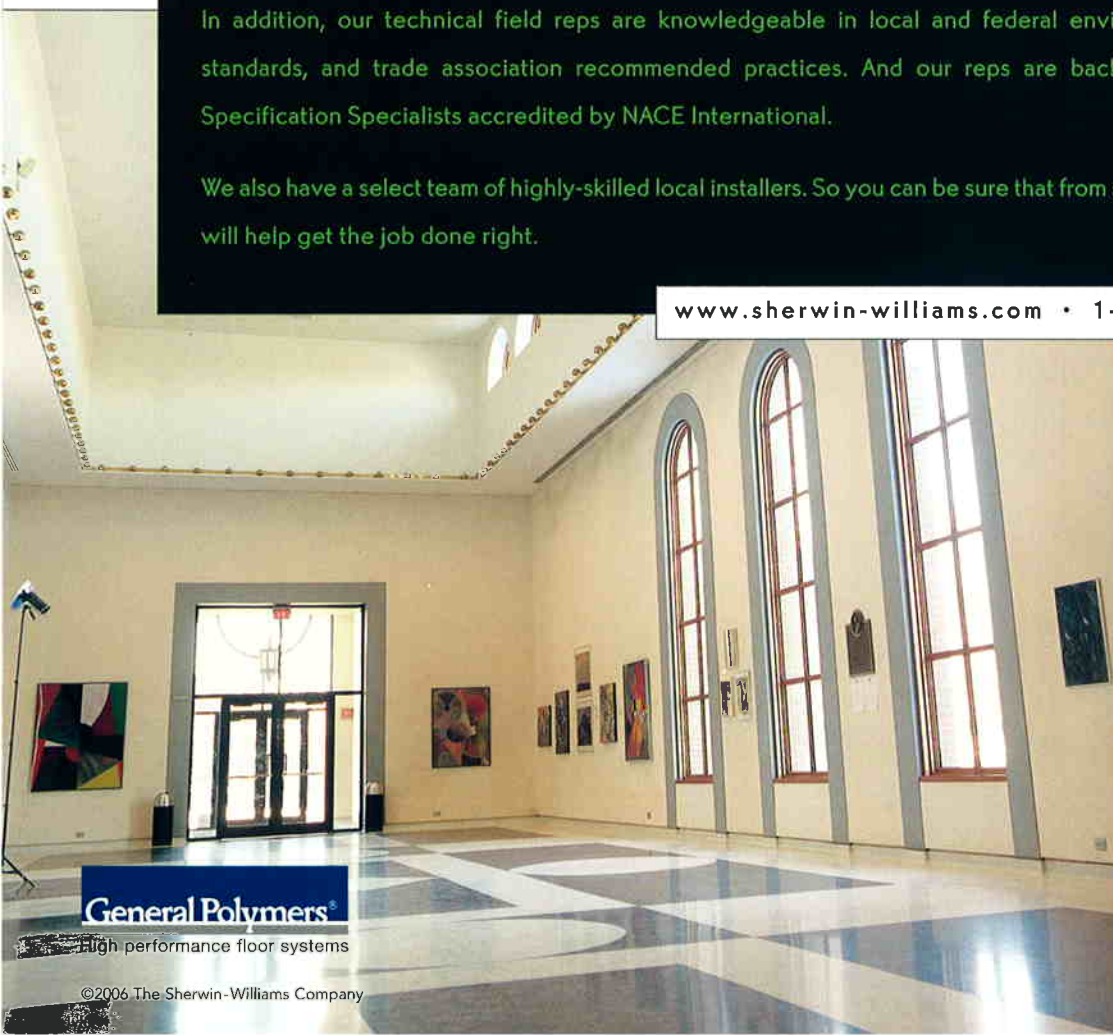

### We're here to help you.

At Sherwin-Williams, we're recognized nationwide for our outstanding customer service and support. Our flooring experts will work with you to help you meet building requirements, answer your questions, and recommend the best product solutions to you.

In addition, our technical field reps are knowledgeable in local and federal environmental regulations, ASTM standards, and trade association recommended practices. And our reps are backed by a team of Corrosion Specification Specialists accredited by NACE International.

We also have a select team of highly-skilled local installers. So you can be sure that from start to finish, Sherwin-Williams will help get the job done right.
